Autumn Tour dates to be announced soon

AFPC Newsletter Nov 8th 2015

Hello Friends

AND FINALLY...

Well here it is, the day has finally arrived when we can tell you the exciting news about our show and what's coming up in 2016!

There has been some speculation about the show not continuing, but I can assure you far from it! We have in place a far more extensive tour with a bigger, even better show.

Our audience numbers have continued to increase over the last 2 years and our Promoters, Talon Music Ltd, and the Theatre industry believe it's time to expand operations and tour fully professionally.

We are very proud to announce that after gruelling and lengthy auditioning across the country the new role of recreating the magic of Phil Collins' vocal sounds has fallen to 42 year old **Chris Hayward** from Brighton. His vocal tone and fantastic stage persona made him stand out above the crowd and with his total devotion of all things Phil Collins and Genesis he will fill his new role with passion and that certain cheekiness that we have already grown to love. We just can't wait for you to meet him!

Other 'Newcomers' for 2016:

Tim Hender on Keyboards. A superb musician who I have performed with in the past and who played a key role in the *And Finally Big Band* this year. Tim is a massive Genesis fan, so more of that to come methinks!

Ray Hatfield on Electric / Acoustic Guitars and Backing Vocals. Ray joins us after spending the last 10 years with Wishbone Ash, a seasoned professional in every way and we are so lucky he was keen to come on board with us.

Emily Eno on Percussion. What can I say, those of you who saw the *And Finally Big Band* Tour will have seen this amazing lady perform. Easily as talented as Louis Conte, Phil's Percussionist, Emily brings a whole new dynamic to the show and adds the final touch in bringing the whole Phil live experience to our performance.

The rest of the band remains as is with **Dave Philips** on Bass Guitar and Backing Vocals, **The And Finally Horns** providing the high octane energy we have all come to love, **Eddie Harper** and **Rhea Soulsby** on Backing Vocals and little old me still bashing away on me beloved drums. Not forgetting the most gifted member of our show, **Mike Hallett** on Sound!

Our association with **Talon** has continued to develop and they have been an enormous support to us for the last 5-6 years. As well as putting together a 70+ date tour for 2016 **Chris Lloyd** and **Peter Anderson** have been heavily involved in the audition process for our new line up too. Their brilliant Design Team, headed by **Anni Lloyd**, have created our new website, posters and images for the new show. It's so wonderful to have the backing and encouragement of the UK's finest Theatre Touring production. We are deeply indebted to them.

As if by some magic you may be aware that Phil himself has re-launched his career with a release of back catalogue songs under the heading of 'Take a look at me now' due to be released early 2016!

So in respect to him our show next year pays tribute to that release and our Tour is entitled 'Take a look at him now'. All of his greatest hits as usual are there, new Phil songs we have not performed before, some requested songs from past shows and new Genesis tracks, providing a spectacular 2 hour show with a whole new stage set and fabulous lighting.

Our new website address is **www.andfinallyphilcollins.com**, which will have all our tour dates and helpful information.

Your Newsletter will also have the new look from next year and will be sent out quarterly giving you updates and news about the tour and the band.

Thank you for your continued support, we really appreciate it and we will continue to provide the very best celebration of Phil's work possible.

Tim Harper

Show Producer
